EDUCATION

B.S. Computer Science & Mathematics | University of Wisconsin-Madison May 2025
GPA: 3.7/4.0 | Study Abroad: University of Copenhagen (Software Engineering)

SKILLS

Systems design & delivery • Enterprise platforms & APIs • Data workflows & automation • Cloud & CI/CD concepts
Languages & Frameworks: Python, Java, C#, NodeJS, React, Angular, JavaScript, TypeScript, SQL, MongoDB
Certification: AWS Certified Solutions Architect - Associate

EXPERIENCE

Charter Communications | Madison, WI Jun 2025 – Present
Associate Software Engineer

- Solely delivered a calendar overhaul epic used by hundreds of designers and contractors, replacing day-by-day manual entry with range-based bulk scheduling
- Implemented complex business logic governing auto-approval rules and event-specific behavior, working across an Angular frontend and MongoDB backend end-to-end
- Contributed to a Java microservices-based provisioning platform (Camunda) for internet, voice, and TV services, developing Groovy unit tests and supporting migration of legacy API to a modern architecture

Skyward Inc. | Stevens Point, WI (Remote) Jun 2022 – Feb 2025
Associate DevOps Engineer

- Primary owner of an internal developer platform serving 300+ engineers, expanding tooling for environment lookup, navigation, and VM provisioning implemented in C#/.NET
- Designed and built a self-service UI for creating and deploying custom virtual test environments, replacing a manual folder-copy process by integrating with Hyper-V backend endpoints
- Automated root environment provisioning end-to-end using SQL-backed dynamic forms and automated IT ticket generation, reducing a 1-hour manual process to 5 minutes
- Implemented GitHub Actions CI/CD pipelines supporting automated builds, test, and releases for many services

PROJECTS

- Built a Python app using QuickBooks API to show overdue invoices and exposure metrics via web dashboard
- Collaborated on a React-based workflow visualization tool built to client specifications; documented system architecture and tradeoffs using UML diagrams

LEADERSHIP & INVOLVEMENT EXPERIENCE

Humorology | University of Wisconsin – Madison
Lead Director April 2023 – Dec 2023

- Led and coordinated a cast of 100+ students, representing Delta Chi in the production of UW-Madison's annual Greek philanthropic theater performances, contributing to over $400,000 raised for Wisconsin charities

Wisconsin State Capitol | Madison, WI
Legislative Intern Sept 2024 – May 2025

- Conducted policy research and drafted briefing materials on key issues including agriculture, health, and AI
- Supported constituents by responding to inquiries and helping resolve issues related to government programs
