Martin Domaradzki

New York, NY | martindomaradzki03@gmail.com | mardom03.github.io | (715) 252-7459

EDUCATION

B.S. Computer Science, Mathematics | University of Wisconsin-Madison May 2025
GPA: 3.7/4.0 | Study Abroad: University of Copenhagen (Software Engineering)

SKILLS

Languages: Python, Java, C#, TypeScript, SQL
Frameworks: Angular, React, Next.js, Node.js, .NET
Infrastructure: AWS (Solutions Architect – Associate), Docker, Terraform, CI/CD (GitHub Actions)
Databases: MongoDB, PostgreSQL

EXPERIENCE

Spectrum | Madison, WI Jun 2025 – Present
Associate Software Engineer

- Delivered a bulk scheduling feature used by 200+ designers and contractors, reducing scheduling time by eliminating manual day-to-day entry and enabling range-based scheduling workflows in Angular and MongoDB
- Implemented event-driven approval logic across frontend and backend services, automating approval routing through rule-based workflows and reducing manual intervention
- Improved reliability of a Java microservices-based provisioning platform (Camunda) for internet, voice, and TV services, supporting migration of legacy API to a modern architecture and increasing unit test coverage to >90%
- Won 1st place in a company hackathon (10 teams) by building a deployment automation platform with integrated systems (GitLab, Jira), including an AI chatbot that answered questions on deployment status

Skyward Inc. | Stevens Point, WI Jun 2022 – Feb 2025
Associate DevOps Engineer

- Owned and scaled an internal developer platform serving 300+ engineers, expanding C#/.NET tooling for environment discovery, navigation, and VM management
- Reduced environment provisioning time from 1 hour to 5 minutes (92%) by automating end-to-end setup with SQL-backed dynamic forms and IT ticket integration
- Built a self-service provisioning UI for virtual test environments integrated with Hyper-V, reducing setup time from minutes to near instant and centralizing environment maintenance
- Designed and maintained GitHub Actions CI/CD workflows across multiple services, adding scheduled maintenance jobs (data cleanup) and automated deployment pipelines triggered on code changes

LEADERSHIP & INVOLVEMENT EXPERIENCE

Humorology | University of Wisconsin – Madison
Lead Director April 2023 – Dec 2023

- Led a cast of 100+ students, representing Delta Chi in the production of UW-Madison's annual Greek philanthropic theater performances, contributing to over $400,000 raised for Wisconsin charities

Wisconsin State Capitol | Madison, WI
Legislative Intern Sept 2024 – May 2025

- Conducted policy research and drafted briefing materials on agriculture, health, and AI policy
- Supported constituents by responding to inquiries and helping resolve issues related to government programs
